

KSC

Keg (storage) cooling

The KSC-720E keg (storage) cooler is often combined with the installation of SFK keg coolers to always have pre-cooled kegs available.

This product contains extra sturdy shelves to store 7 x 20L kegs and can be placed anywhere near the dispense point.

Specially developed for storing 7 x 20L kegs

Environmentally friendly and low energy consumption

Easy to maintain

Just like SFK keg coolers, this product has also been developed according to the Energetic principle, which stands for environmental friendliness and low energy consumption. The machine is completely removable so that quick service in the field is possible.

The KSC-720E has also proven to be the ideal cooler for (beer) crates.

A mobile stainless steel frame is available for events. This frame is equipped with stainless steel wheels and can take a beating, providing optimal protection for the cooling system.

PRODUCT FEATURES

- Forced air cooling
- Better cooling capacity with 35% lower energy consumption
- Sturdy shelves especially for 20L kegs
- Easy servicing due to removable machine unit
- Natural refrigerant R290
- Adjustable legs
- Skinplate housing (exterior anthracite, interior silver coloured))
- Electronic thermostat with automatic defrosting
- Interchangeable door seals
- Also suitable for the storage of (7) crates
