

SKB

Keg cooling (panels)

Because the SKB keg cabinets are made up of panels, they can easily be placed in small spaces, such as cellars. The cooler comes as a panel structure with a separate, plug-ready machine unit. The bottom is reinforced and the large doors provide easy access.

Panel structure

Suitable for all keg types

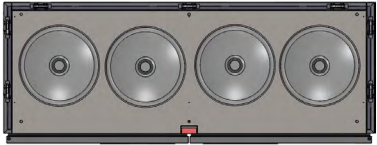

Available with
plug-ready
machine unit

SKB keg cooling is therefore specially developed for the storage of 20L, 30L and 50L kegs or crates. The Energetic label stands for environmental friendliness and low energy consumption.

PRODUCT FEATURES

- Forced air cooling
- Better cooling capacity with 35% lower energy consumption
- Natural refrigerant R290
- Electronic thermostat with automatic defrosting
- Reinforced base plate
- Legs adjustable from the inside
- Skinplate housing (exterior anthracite, interior silver coloured)
- Interchangeable door seals
- Prepared cut-outs for machine unit
